

LEARNING NUMBERS

Write the correct number of shapes in the boxes below.
Then add and write down the sum.

A large rounded rectangle contains 3 yellow suns. To its right are 2 more yellow suns. Below the large rectangle is a smaller rounded rectangle with an arrow pointing down to it. To the right of this box is a plus sign (+). To the right of the plus sign is another smaller rounded rectangle with an arrow pointing down to it. Below these two boxes is a third rounded rectangle with arrows pointing to it from both boxes above.

A large rounded rectangle contains 6 red apples. To its right are 4 more red apples. Below the large rectangle is a smaller rounded rectangle with an arrow pointing down to it. To the right of this box is a plus sign (+). To the right of the plus sign is another smaller rounded rectangle with an arrow pointing down to it. Below these two boxes is a third rounded rectangle with arrows pointing to it from both boxes above.
