### Upute

Instructions: Cut out the drawn cards and cut out the drawn fields from each card. Fold and glue the fourth card so that you get the front and back side. Ask someone to think of a number from 1 to 15. After this, show them the front side of each card and ask them if their number is located on the card. If the answer is confirmed, place the card on the table so that "YES" is faced upwards. If however, the answer is negative, then you must turn the card over to that "NO" is faced upwards. By doing this, we are stacking all of the cards one on top of the other, so that the front side of the fourth card is on the top. Then we flip the entire stack and on the back in the space read the wanted number.

### Card 4 - Front side

YES <b>8</b>	<b>9</b>		NO
<b>10</b>	<b>11</b>		
		<b>12</b>	<b>13</b>
		<b>14</b>	<b>15</b>

### Card 4 - Back side

<b>8</b>	<b>9</b>	<b>10</b>	<b>11</b>
<b>10</b>	<b>11</b>	<b>12</b>	<b>13</b>
<b>12</b>	<b>13</b>	<b>14</b>	<b>15</b>
